# A “suspenseful” bridge project in Stansstad.

## Impressions

## Image notes

**1** Bridge over road and platforms.  
Since 2006, the new Ausserfeld bridge has spanned the A2 motorway and the central railway.

**3** Five spans, one bridge.  
The new Ausserfeld bridge consists of five spans, each 60m long and 10m wide.

**2** Demolition in all weathers.  
The old bridge was demolished at the end of winter. After this, the new construction could begin.

Do you have questions about the project or would you like to learn more? Feel free to contact us for further information.
