Bridge construction according to schedule.

With the new 200m-long bridge, trains will be able to cross the airport rail line without having to intersect with it. This avoids passenger and goods traffic having to wait. The bridge was put into operation in December 2018.

Impressions

Image notes

1

Unobstructed travel on all lines.

The passage of suburban railway, intercity and goods trains along this stretch will be decongested by the new rail bridge.

2

Construction progress on schedule.

The bridge was put into operation in December 2018.

3

New construction on working railway.

More than 500 trains passed the construction site each day.
