

Rock face protection, Ölberg, Axen

Data and facts

Company	PORR SUISSE AG
Type	Rock technology
Runtime	10.2010 - 12.2011
Principal	SBB AG

[Project report online](#)

www.porr-group.com

A clear case for specialists.

In this way, PORR succeeded in installing rock anchors over a distance of 500m, and fitting 700m² of steel mesh netting, to provide lasting protection from rockfalls to the traffic passing beneath.

Impressions

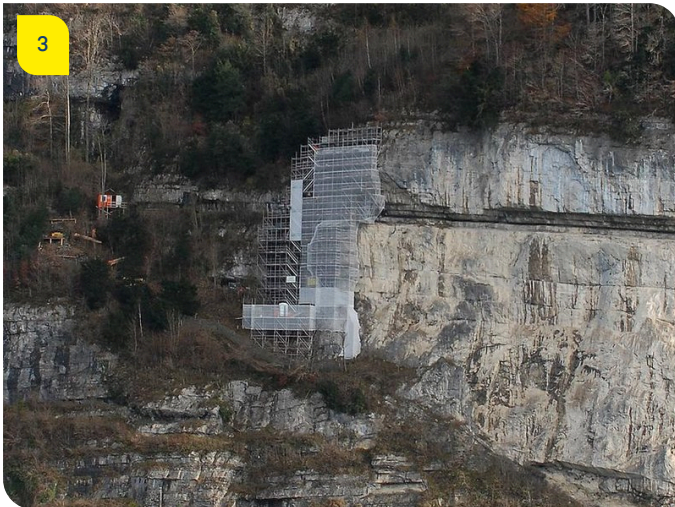

Image notes

1

Defying gravity.

Since the end of 2011, the rock face at Ölberg in Axen has been secured by rock anchors and steel mesh netting.

2

Superlative scaffolding.

Works took place atop 15 storeys of scaffolding.

3

Spectacular project completed.

Photo: view of a partially-scaffolded rock face from a distance; in foreground the Vierwaldstättersee; beyond the rock face, autumn forest and partly snow-covered alpine meadows
