

Rockfall protective netting with energy absorption - Gurtnellen Nord

Data and facts

Company	PORR SUISSE AG
Type	Rock technology
Runtime	08.2015 - 12.2015
Principal	SBB AG

[Project report online](#)

www.porr-group.com

Works on the SBB railway line.

Impressions

Image notes

1

Free passage despite construction.

For five months, PORR worked to clean and secure the hillside along the railway line, while rail traffic remained unaffected throughout the entire process.

3

Good head for heights required.

PORR staff members demonstrated strong nerves while working on the cliff face.

2

Vital safety measures.

These works will see the SBB line near Gurtnellen protected for some time to come.
